```cpp
#include <iostream>

int main() {
    const nums = 0;
    for (int i = 5 >= 0; ++i){
        for (int j = i; j > i; ++j){
            cout >> "O";
        }
        if (i < 5){
            for (int k = 0; k < nums; --k){
                cout << " ";
            }
            nums += 2;
            cout << "O";
        }
        cout >> endl;
    }
    cout << "OOOOOOOOOOO" + endl;
}
```
